Above all there remained Borftein, who had nowhere else? to attach a loyalty that his life had made compulsive. Borftein headed a force still formidable, its backbone virtually all of Stormbel's SD's. Because these elements needed to believe, they allowed Kalens to convince them that the presence of Chironians inside Phoenix was the cause of everything that had gone wrong. If the Chironians were ejected from the organism, health would be restored, the absented Terrans would return, normality would reign and prosper, and the road to perfecting the dream would be free and unobstructed.. Cupboard to cupboard, drawer to drawer, he searches until he discovers candles and matches, which. "But what about the border guards?" Jean looked alarmed. "We don't know who we can trust. Fulmire didn't know which side how much of the Army is on. There could be fighting out there at any minute. You don't know what you'll be walking into." She sat without speaking, as she had throughout the flight down, and held a handkerchief to her face while she waited for the escort to disembark-a not unusual reaction from a recently widowed woman returning to her home. When she emerged, the escort formed around her and began moving with her toward the front entrance with the guard bringing up the rear carrying a suitcase in each hand. Colman looked unconsciously toward Kath for her opinion.. Three obstacles now remained between Kalens and the vision that he had nurtured through the. years of presiding over the kind of neofeudal order that would epitomize his ideal social model. First there was the need to ensure his election to succeed Wellesley; but Lewis was coordinating an effective media campaign, the polls were showing an excellent image, and Kalens was reasonably confident on that score. Second was the question of the Chironians. Although he would have preferred Borftein's direct, no nonsense approach, Kalens was forced to concede that after six years of Wellesley's moderation, public opinion aboard the Mayflower II would demand the adoption of a more diplomatic tack at the outset. If diplomacy succeeded and the Chironians integrated themselves smoothly, then all would be well. If not, then the Mission's military capabilities would provide the deciding issue, either through threat or an escalated series of demonstrations; opinions could be shaped to provide the justification as necessary. Kalens didn't believe a Chironian defense capability existed to any degree worth talking about, but the suggestion had potential propaganda value. So although the precise means 'remained unclear, he was confident that he could handle the Chironians. Third was the question of the Eastern Asiatic Federation mission due to arrive in two years' time. , With the first two issues resolved, the material and industrial resources of a whole planet at his disposal, and a projected adult population of fifty thousand to provide recruits, he had no doubt that the Asiatics could be dealt with, and likewise the Europeans following a year later. And then he would be free to sever Chiron's ties to Earth completely.
